INTRODUCING

YOUR PERFECT DOOR SOLUTION

WHY CHOOSE RESIDENCE?

As a market leader in flush window systems, we want to keep challenging the timber alternative sector, and that's why we have introduced the new Residence Collection door system; you can now offer a complete suite of timber alternative doors for all of our systems; R9, R7 and R^2.

The open-in door sash is chamfered to perfectly suite with our open-out door sash and window sash. The door features a new deep bottom rail, mid-rail and patented* panel surround trim, as well as a full range of matching foiled flat and raised and fielded panels.

No.10 BLACK | R9 CLIFTON

TURNER OAK | R7 CHELMARSH

BEAUTIFULLY DESIGNED, BLENDING TRADITIONAL AESTHETICS WITH MODERN PERFORMANCE

**Patent Pending GB - GB2315791.0, Patent Pending IRE - 2023/0432*

RESIDENCE 9

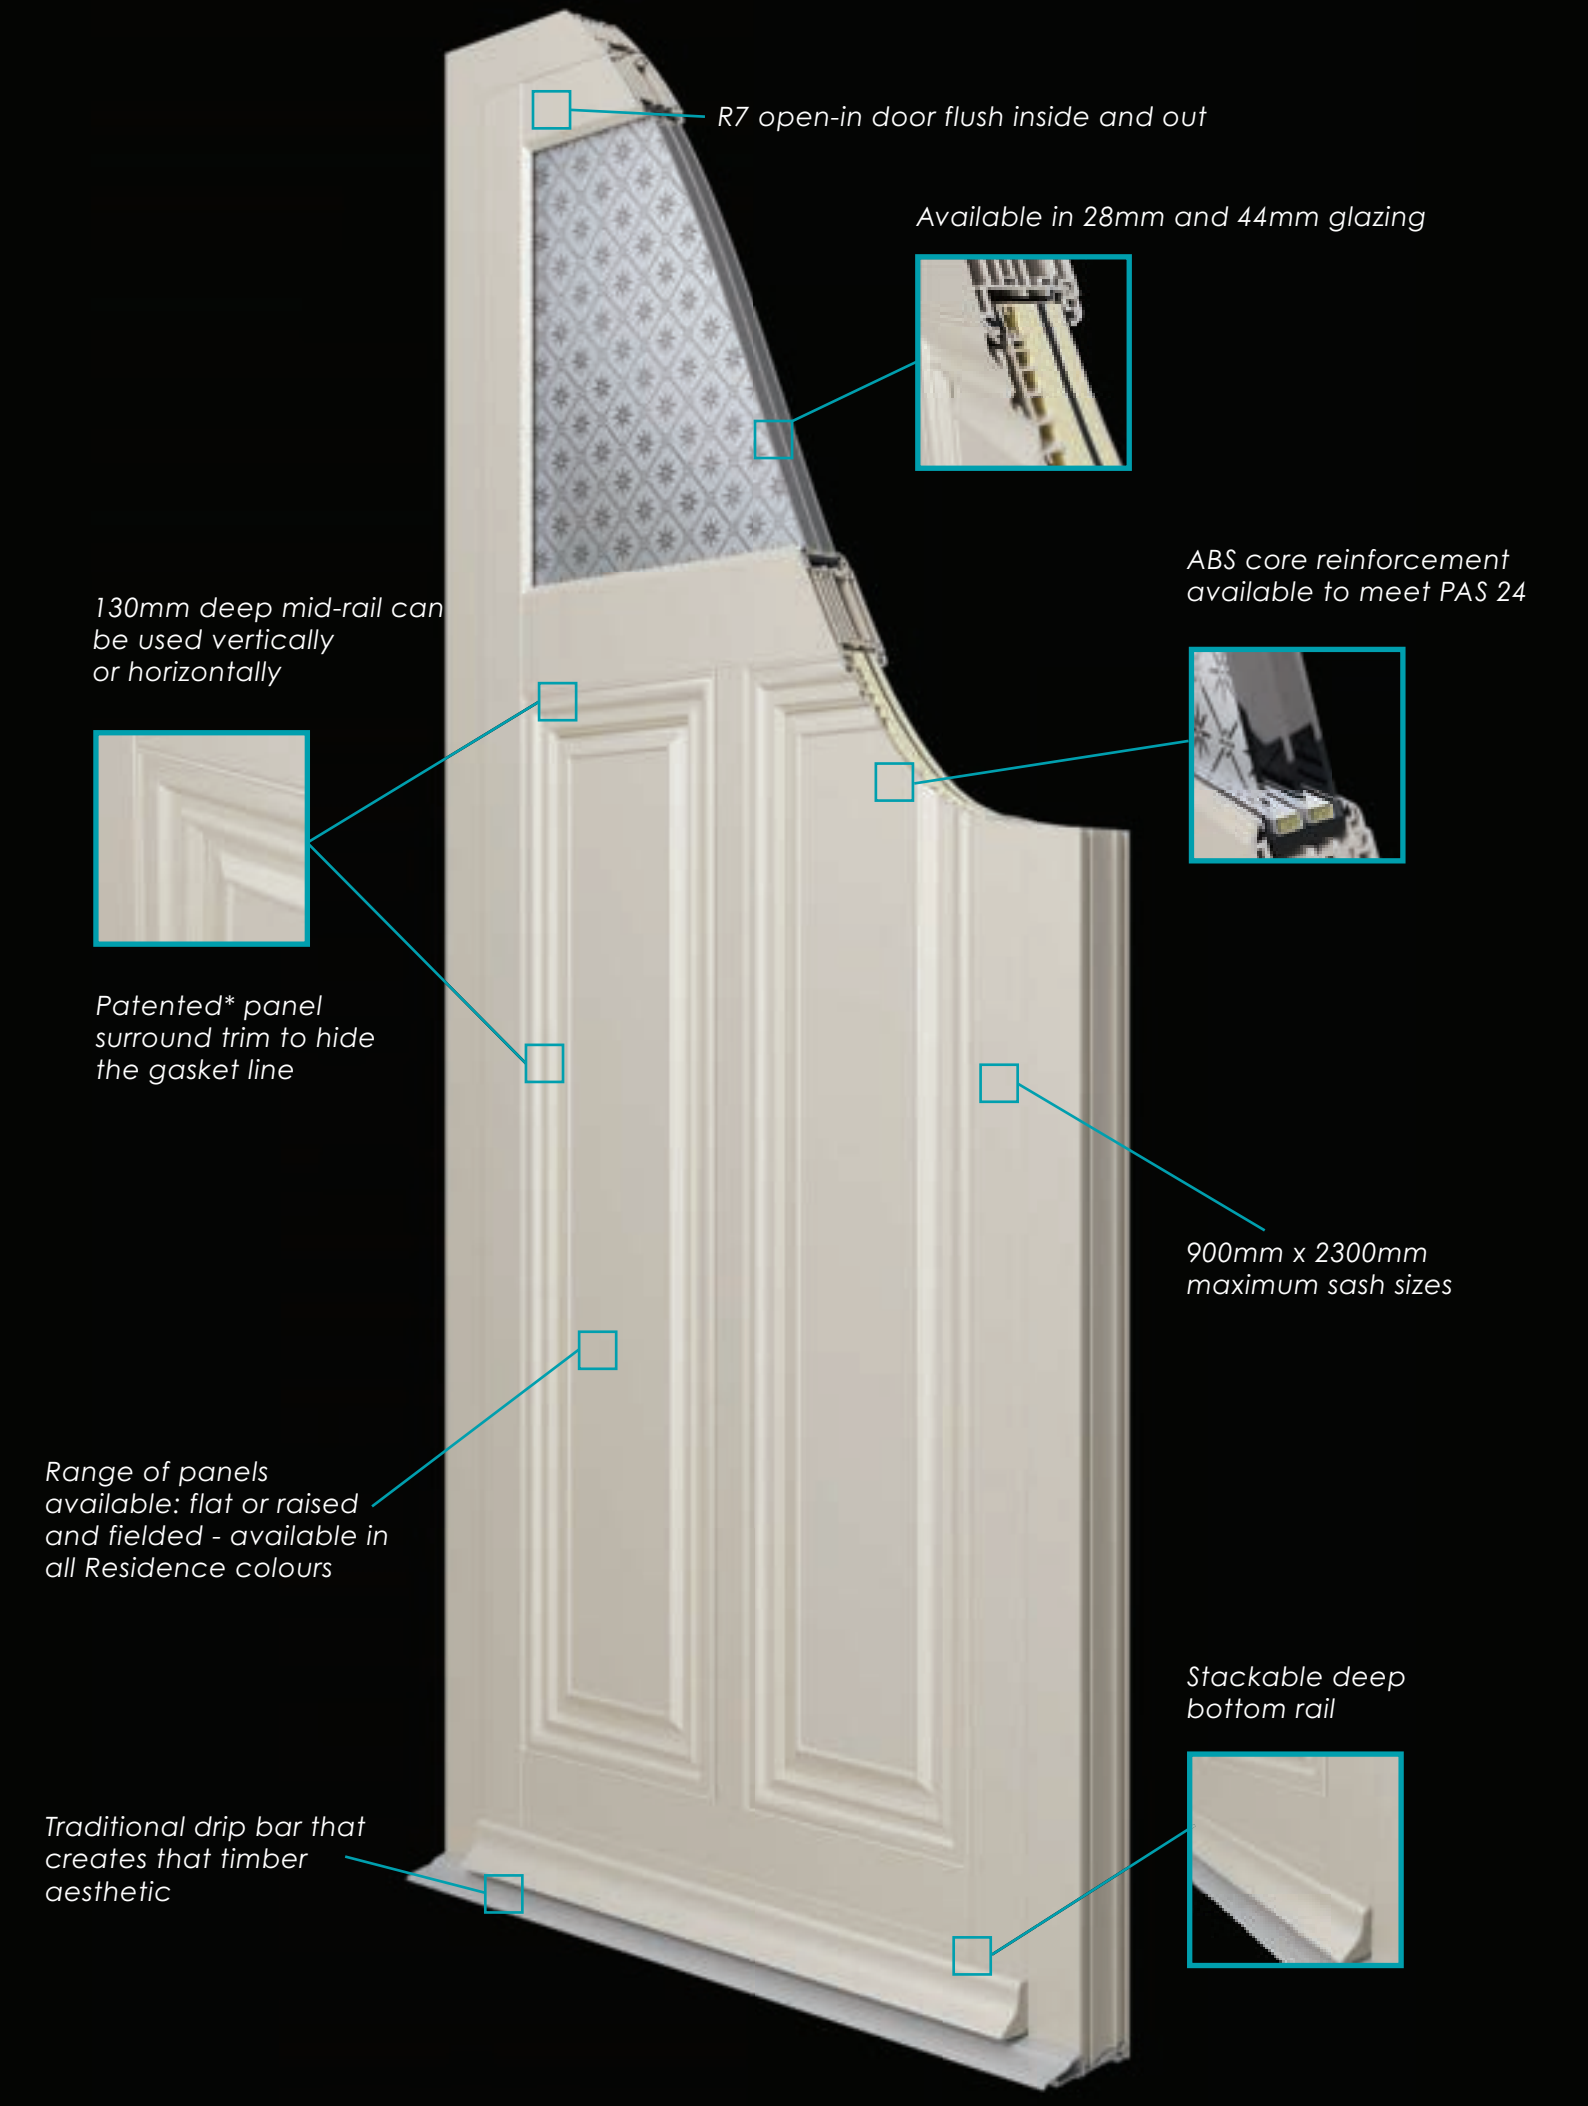
9 CHAMBERS
R9 is designed to authentically replicate 19th Century timber designs. It's a clever blend of old and new.

RESIDENCE 7

7 CHAMBERS
R7 is beautifully flush inside and out. The ideal solution for both aluminium or timber style doors.

RESIDENCE^2

9 CHAMBERS
R^2 is squared and bold, for the contemporary home. Beautifully defining square detailing on the inside.



R7 open-in door flush inside and out
Available in 28mm and 44mm glazing
ABS core reinforcement available to meet PAS 24
130mm deep mid-rail can be used vertically or horizontally
Patented* panel surround trim to hide the gasket line
900mm x 2300mm maximum sash sizes
Range of panels available: flat or raised and fielded - available in all Residence colours
Stackable deep bottom rail
Traditional drip bar that creates that timber aesthetic

FEATURES
AND BENEFITS

Engineered to match perfectly with our R9, R7 and R^2 window systems. This open-in door combines classic styling with modern performance.

NEW OPEN-IN SASH
Chamfered to perfectly suite our open-out door sash and window sash.

NEW DEEP MID-RAIL
Horizontal or vertical it provides the space for that perfect letter plate or knocker.

NEW TRADITIONAL DRIP BAR
Traditional drip bar that creates that timber aesthetic.

PAS 24 FULLY TESTED
Our designs are all PAS 24 tested meeting strict security standards.

PANEL SURROUND TRIM*
Hides the gasket line and offers a moulded timber aesthetic.

RANGE OF COLOURS
11+ colours available to choose from across all systems.

LOW U-VALUES
Our doors can reach a u-value of up to 0.77 with triple glazing.

LARGE SASH SIZES
Create a door of any size with sash sizes up to 900mm x 2300mm.

NEW DEEP BOTTOM RAIL
Stack the new deep bottom rail so it can match a traditional timber door style.

NEW CLIP-ON GEORGIAN BAR
Our Georgian bar features an aluminium clip bar system for that perfect alignment.

Patent Pending GB - GB2315791.0,

CUSTOM SIGNATURE DESIGNS

This glass collection features a range of hand-crafted designs, available in any custom size to perfectly complement your engineered door style.

The decorative glass design is created using vibrant colours, textured glass pieces, hand-cut bevels and zinc and patina blackened cames. Then, the decorative glass pane is turned into a thermally efficient, triple glazed insulated unit, encapsulated between two panes of tempered glass, for a smooth, easy-to-clean surface.

STAINED GLASS OVERLAY (SGO)

Unleash your creativity with SGO, where glass design knows no bounds.

This decorative glass technique utilises traditional craftsmanship to hand-create entirely custom designs.

Choose from an eye-catching selection of coloured films, bevelled glass, and lead lines to either faithfully reproduce period decorative glass designs or forge a truly distinctive look for your door.

ETCHED AND SAND-BLASTED GLASS

Regalead's etched glass collection combines clear and semi-transparent sections to ensure privacy while adding elegance.

Options include intricate repeat patterns like Mayfair, and designs with distinct key lines and borders such as Strand and Kensington.

For an elevated door design, explore Regalead's exquisite etched motifs, or personalise your glass with custom etched letters and numbers.

DECORATIVE
GLASS BY REGALEAD

No authentic, heritage, timber-look door design is complete without beautiful decorative glass. The right glass design can transform your door into a stunning architectural design feature.

CUSTOM SIGNATURE

SGO

ETCH & SAND-BLASTED

Regalead's decorative glass utilises dazzling bevels, fine etching, textured glass and stunning colours to add understated elegance or a statement finish to your engineered door. Replicate classic Victorian architectural features with delicately etched glass designs, choose a design that combines practical privacy with bevelled beauty, or opt for an intricate and ornate stained glass 'picture' window for a beautifully unique entrance door.

To complete your grand entrance, there's a full range of complimentary sidelight and toplight glass designs for consistent aesthetics in larger door apertures.

GLASS PERFORMANCE

All decorative glass choices feature double or triple glazed, high-performance, low-emissivity, insulated glass units, manufactured with warm edge spacer bars.

For enhanced security, laminated glass is available, to comply with the strict PAS24:2022 standard and Approved Document Q Building Regulations for residential security.

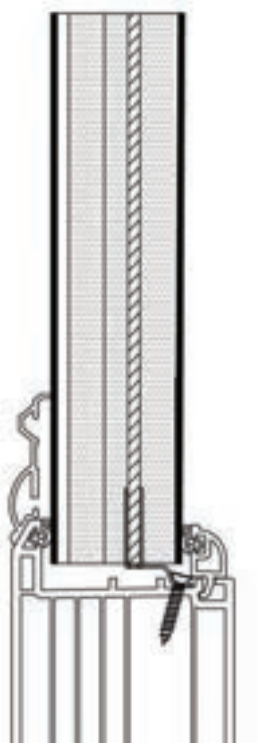
ABS CORE SECURITY OPTION

The ABS core reinforced panel specification is designed for use with GT Products panel clip to offer a level of security to surpass the requirements of PAS 24.



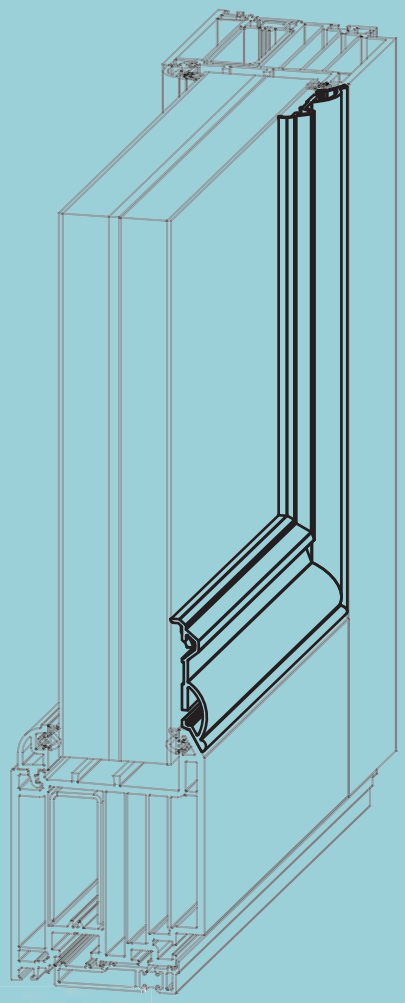
DESIGN OPTIONS

PANEL SURROUND TRIM & DRIP BAR

PANEL SURROUND TRIM

For a traditional timber-look finish, the unique Residence Collection panel surround trim is available in a wide range of colours **It can be purchased as kit form, and cut to size.**

The panel surround trim is simply applied using clips it hides the gasket line and offers a moulded timber aesthetic. Panel surround trim is suitable for both flat panels and raised and fielded panels.



Please Note
Cross sections are for illustrative purposes, see available threshold options on page 39.

Patent Pending GB - GB2315791.0, Patent Pending IRE - 2023/0432

DRIP BAR

Fitted to the bottom of the door, The Residence Collection drip bar has been designed to direct rainwater away from the door's threshold as well as replicating historical timber designs.

HISTORICAL REFERENCE

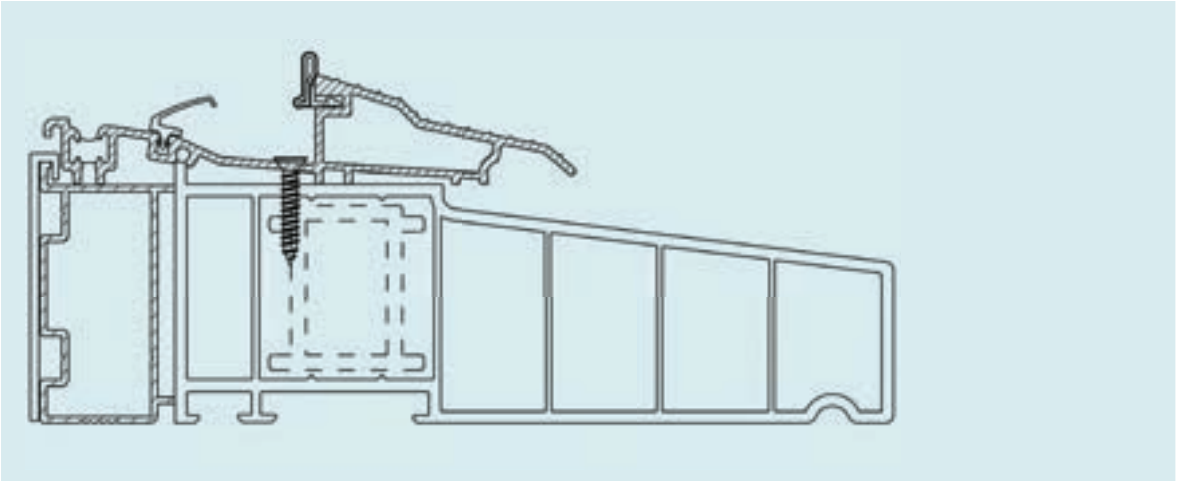
RESIDENCE DRIP BAR

DESIGN OPTIONS

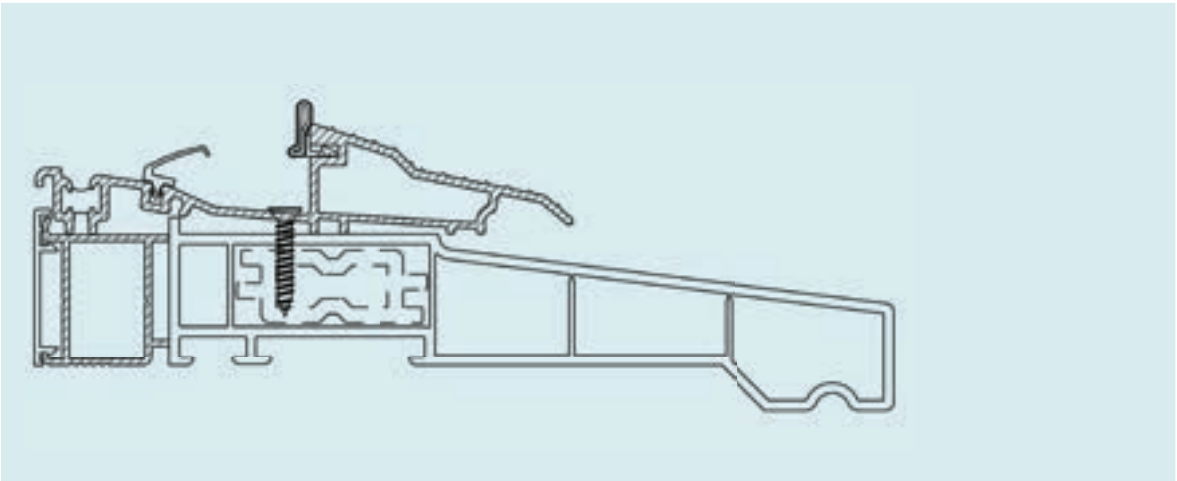
RADLINGTON CILL & LOW THRESHOLDS

THE RADLINGTON

The Residence Collection offers a variety of cills in different sizes to suit your needs. If you're replacing an old timber cill, **The Radlington** is an ideal choice, designed as a modern interpretation of traditional timber. Crafted to authentically complement your Residence Collection door, it allows you to recreate that stunning, classic and timeless look.



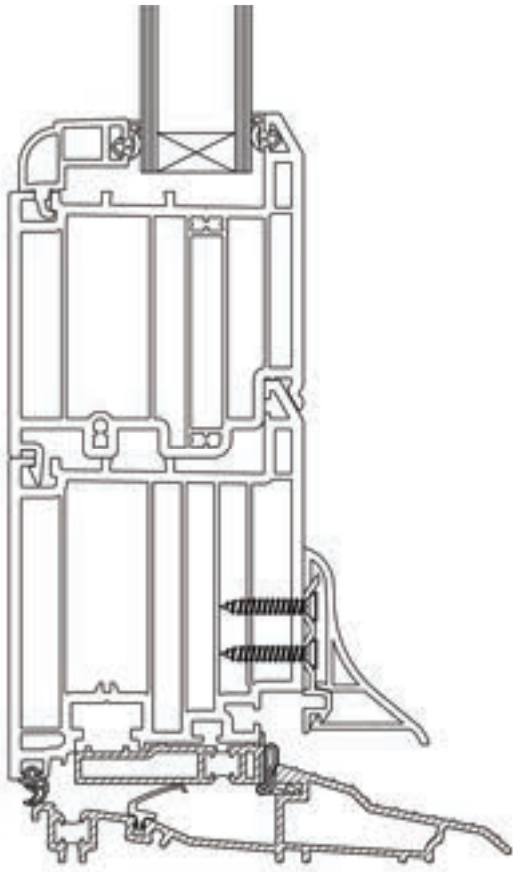
55MM RADLINGTON CILL

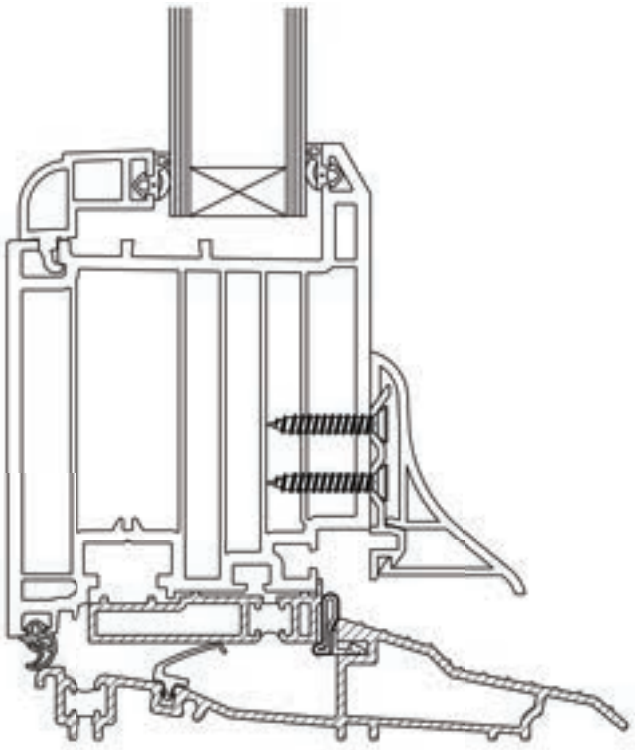


30MM RADLINGTON CILL

LOW THRESHOLD

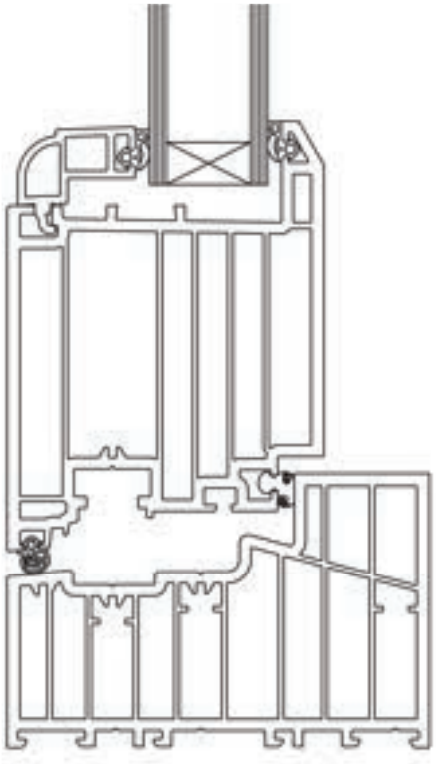
A low threshold is available with all three Residence Collection door systems. An alternative stub threshold AM3EX78 Stormguard option can be used.





LOW THRESHOLD WITH DEEP BOTTOM RAIL

An alternative stub threshold AM3EX78 Stormguard option can also be used with the deep bottom rail.



FULL FRAME

R² profile only offers a full frame solution for your entrance door, this is due to positive drainage on the R² frame.

Systems	Full Frame	Low Threshold	Low Threshold + Deep Bottom Rail
R9	✕	✓	✓
R7	✕	✓	✓
R²	✓	✓	✓

Please Note
These threshold options are based on a single entrance door only.

SIDELIGHTS & TOPLIGHTS

Sidelights and top lights are available to complement any front door style, offering additional light and enhancing the overall appearance. Glazing options range from clear to decorative depending on privacy requirements, and they are foiled to match the door for a consistent, high quality look.

STANDARD COLOUR OPTIONS INCLUDE:

Grained White
Clotted Cream
Painswick
Silvered Oak
Corse Lawn
Eclectic Grey
No.10 Black

***SPECIAL COLOUR OPTIONS FOR SIDELIGHTS:**

Clay
Pebble Grey
Sage
Turner Oak

***Special order only** - additional lead times, surcharges and minimum order quantities may apply. R7 colours on a white base (i.e on chalk white or grained white internally) will be exempt from minimum order quantities and on improved lead times.*

SECURITY & PERFORMANCE

THERMAL PERFORMANCE

The thermal performance of the door depends largely on the specification of the insulating glazing unit when simulated in accordance with BS EN ISO 10077-2.

DER (Door Energy Rating) reports covering the range of Residence products with various glazing specifications are available on request.

U-value calculation in accordance with BS EN ISO 10077-2 are also available on request.

SECURITY

The Residence Collection entrance door has been rigorously tested to PAS24:2022 with panels incorporating ABS core. The test covered cut through, soft body and hard body impact. Full details of the test and specifications are available from The Residence Collection.

***Fully Glazed Door**
