HOPPE®

Handle of excellence.

Resista® - HOPPE's surface protection

HOPPE handles with Resista® surface protection have a special protective layer, which is applied onto the base material.

Resista® surface protection distinguishes itself through the following features:

Features	Benefit
● hardwearing surface	➔ high scratch resistance
● high resistance to corrosion and tarnishing	➔ long-lasting surface quality
● UV resistant	➔ non-fading surface colour
● resistant to atmospheric agents	➔ protection of the surface from rain, ozone, sea-air etc.
