RESIDENCE 9 CONSERVATORIES | CLOTTED CREAM • CLOTTED CREAM

My RESIDENCE

Case Study

An R9 conservatory can create a unique addition to any home and can be a treasured and valuable room, providing much needed additional space.

These homeowners opted for R9 in Clotted Cream, a classic colour choice with a subtle hint of yellow that gleams in the sunshine - perfect for a room that will be capturing the best of the sunshine all year round.

Mullion stiffener was used to create a traditional timber look - Old timber windows often had a raised moulding that ran horizontally or vertically, this bar looked distinctive and gave the windows depth and character. The bar's purpose was to shed dripping water and to increase the strength of the mullion, that is why we recreated this optional feature with Residence 9, time-served traditional performance and aesthetics.

The result is a bright and airy living space perfectly joining home and garden to relax in.

Mullion stiffener was added to create the ultimate traditional aesthetic.
